On May 13, 2016, the District awarded the construction contract for the Dam 7 Modernization project to ASI Constructors, Inc. (ASI). The District used the Competitive Sealed Proposal process set forth in Texas Government Code 2269 to procure the contractor for the project. On March 2, 2016, the District received seven proposals. The selection team evaluated each proposal according to the evaluation criteria established by the District. On April 1, the District interviewed the three top ranked proposers. On April 15, the District determined that ASI submitted the proposal that offered the best value to the District, and the Board authorized staff to attempt to negotiate a contract with ASI. After completion of negotiations, on May 13, the District awarded the construction contract to ASI for the base items (\$15,376,975) and all five alternate items (\$2,442,038) for the total amount of \$17,819,013.
